

Skilled Sponsored (Residence) visa (subclass 886) Eligible Skills List

The Queensland Government provides a limited number of nominations to those skilled migrants who have an eligible skill and who are assessed as likely to provide a clear benefit to the Queensland economy. DIAC eligibility is also a condition of Queensland nomination for sponsored visas.

Please be advised that applying for nomination correctly does not guarantee success. Nomination is granted at the discretion of the Queensland Government and once a decision has been made it is final, and the Queensland Government does not endorse any appeals to DIAC.

The eligible skills lists are reviewed regularly and updated to reflect current labour market conditions. Some occupations have limited places, and when these places have been filled, they will be removed from this list.

Each occupation on this list has its own:

- English language requirements
- qualifications and registration.

Applicants for this visa must:

- meet the Australian Government's eligibility criteria for that visa
- have an occupation on the Skilled Sponsored (Residence) Visa (Subclass 886) Eligible Skills List and meet the requirements for that occupation
- have a job or job offer in Queensland in the nominated occupation (including a signed statement from the employer, and the name, address, ABN and contact phone number for the business)
- provide evidence of Queensland residency (i.e. applicant's name on a rates notice, tenancy agreement or Queensland driver licence)
- meet other nomination requirements detailed on the application form
- include a copy of a detailed CV
- include any other supporting documentation deemed relevant to the application
- be assessed by Migration and Skills Recruitment Queensland as being likely to provide a clear benefit to the Queensland economy
- have sufficient settlement funds (as cash) in case of potential long term unemployment
- correctly complete and submit an application form.

To apply for nomination, applicants must meet **all** requirements for their nominated occupation.

ANZSCO name	Minimum IELTS/OET	Qualifications and assessing organisation	Membership/Registration/Licensing
Medical Laboratory Scientists
